

Administration of the Office

**Organization and Staffing of the
Office of the Commissioner of Insurance**

Organizational Structure

The office is divided into the Insurance Administrator area, the Legal Unit and two divisions, the Division of Regulation and Enforcement and the Division of Administrative Services.

Insurance Administrator

This unit provides advice on executive matters affecting the office's goals and initiatives, directs the office's legislative initiatives, communications activities, and provides advice on technical insurance-related issues.

The OCI managed care specialist, who serves as an ombudsman for consumers who have questions or problems with their managed care plans, is assigned to this unit. The managed care specialist investigates complex managed care complaints received by OCI and educates consumers on their rights under managed care plans. Implementing and administering the state's independent review program is the responsibility of the managed care specialist.

This unit also has administrative responsibilities for three segregated funds: the Injured Patients and Families Compensation Fund (formerly the Patients Compensation Fund), the Local Government Property Insurance Fund, and the State Life Insurance Fund.

The Injured Patients and Families Compensation Fund provides medical malpractice protection to health care providers for claims in excess of \$1,000,000 per claim or \$3,000,000 annual aggregate for each policy year.

The Local Government Property Insurance Fund offers property insurance protection to qualified local government units.

The State Life Insurance Fund offers life insurance to Wisconsin residents in amounts not exceeding \$10,000 per person.

Legal Unit

The Legal Unit represents the office in administrative proceedings, provides legal advice to staff, represents or supervises representation of the office in litigation and insurance company receiverships, provides legal services for the Patients Compensation Fund, Wisconsin Health Care Liability Insurance Plan, Local

Government Property Insurance Fund and State Life Insurance Fund, and develops legislative proposals and administrative rules.

Division of Regulation and Enforcement

The division is responsible for carrying out all of the office's insurance regulatory and enforcement responsibilities, along with the office's consumer education program through the development and publication of the office's insurance consumer education publications. In addition, the division is responsible for the development and promulgation of administrative rules interpreting insurance statutes, as required. Finally, the division has a major role in the office's participation in the National Association of Insurance Commissioners, a trade association made up of the country's chief insurance regulators.

The division fulfills its regulatory responsibilities primarily through its two bureaus, described below.

Bureau of Financial Analysis and Examinations. This bureau monitors the financial solvency of insurers licensed to do business in Wisconsin. It conducts field financial examinations of domestic insurer operations, administers insurer rehabilitations and liquidations, audits and collects insurer taxes and fees, licenses insurance companies, and administers the fire department dues program.

Bureau of Market Regulation. This bureau reviews the rates, forms, and contracts filed with the agency by insurers; determines compliance with applicable laws and rules; initiates appropriate administrative actions; examines insurer underwriting and rating procedures, advertising files, claims processes and policyholder services; staffs several risk-sharing plans; provides assistance to consumers in resolving problems with insurers and agents; disseminates information to the public; investigates agent activities; conducts field reviews of insurer operations; and administers the insurance intermediaries testing and licensing program.

Division of Administrative Services

This division is responsible for all general administrative functions of the agency including information technology, budget, accounting, contracting, purchasing, human resources, facilities management, records management, mail, publications, and support services.
