Notes to Financial Statements

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of the Local Government Property Insurance Fund (the Fund) are presented on the basis of accounting practices prescribed or permitted by the Office of the Commissioner of Insurance of the State of Wisconsin (OCI).

The OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under Wisconsin Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Wisconsin.

B. Use of Estimates

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

The Fund recognizes premiums as earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods.

Net investment income earned consists of interest less investment related expenses. Interest is recognized on an accrual basis.

Expenses incurred in connection with acquiring new and renewal insurance business, including acquisition costs, are charged to operations as incurred.

In addition, the Fund uses the following accounting policies:

1. Short-term investments are stated at amortized cost, which approximates fair value.
2. Investment grade bonds not backed by other loans are valued as prescribed by the NAIC and adjusted for the amortization of premiums, accretion of discounts, and any impairment. Premiums and discounts are amortized and accreted over the estimated lives of the related bonds based on the straight-line method. The Fund's bond portfolio is reviewed quarterly and as a result the carrying value of a bond may be reduced to reflect changes in valuation resulting from asset impairment. Bonds which have been assigned the NAIC category 3 thru 6 designations are written down to the appropriate NAIC carrying value.
3. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

20. Fair Value Measurements

SSAP 100, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

C. Other Disclosures

The Fund contracts out for specialized services, such as policy and administration and claims administration. As of April 2010, The ASU Group manages the policy and administration for the Fund and Crawford and Company manages the claims administration.

During fiscal year 2010, as directed by the state legislature in the fall of 2009, the Fund declared a dividend of approximately \$12 million to be applied as premium credits against policyholders' 2010 renewal premiums. The dividends were calculated based on each insured's previous 5 years earned premium through June 30, 2009 as a ratio of the total premium earned by the Fund for the same five year period. The dividends were a return of approximately 11% of each insured's total 5 year premium earned, or approximately 57% of the insured's 2010 expected renewal premium. The State legislature did not require the Fund to declare a dividend during fiscal year 2013.
